

## Phinizy Swamp Nature Park

Hi! I'm Phin, and I'm a yellow-bellied slider. I live at Phinizy Swamp Nature Park, and it's a great place for my family and I since we are land and water turtles. Yellow-bellied sliders hatch from eggs on land and can live for up to 30 years! I see very well. I love to eat aquatic plants. My favorite thing to do is to bask on a log in the sunshine. When I am afraid, I slide back into the water where I feel safe.
